

Dear SirsWhy can't you people leave something good alone? XM is great! You hear what you want to hear not what someone wants to force feed to you. The Feds are to much involved in everyones life! Listen to public radio you hear everything but what you are tuned into to find out anything. You find out more about tampons deoderent and many other usless info but traffic. LEAVE XM ALONE It's good it works its not broke so don't even try to fix it!!

Thanx
Jerry
